

CIRCULAR

FILE: AP 5/3/2 **TO:** CROP Members
DATE: 30 July 2020
CIRCULAR: 20/66
SUBJECT: **Invitation to Comment on Pacific Coral Reef Action Plan**

Dear CROP Members,

The Secretariat of the Pacific Regional Environment Programme is working with members to develop a Pacific Coral Reef Action Plan.

A Draft of the Action plan has been developed through consultation with Pacific Island Countries and Territories by email survey from our consultants BMT, Australia.

The conservation and sustainable use of coral reefs is absolutely critical for many aspects of the future of Pacific Region, and will require collaboration and support from all sectors at both the national and regional level.

SPREP now seeks feedback on the Draft Pacific Coral Reef Action Plan and would like further information on programmes which agencies have in place which may address some of the priorities which have been identified by our members.

The Consultants, BMT, will be contacting you to seek your input via email survey. SPREP values the input of CROP agencies on this important document and look forward to developing collaborative programmes to ensure the future of coral reefs in the Pacific Region. Please circulate the survey to appropriate people in your organisations.

If you have any queries please contact Peter Davies, peterd@sprep.org.

Yours sincerely,

Roger Cornforth
Acting Director General
