

CIRCULAR

FILE: AP_6/5/8/1 **TO:** SPREP National Focal Points
DATE: 19 May 2021
CIRCULAR: 21/40
SUBJECT: **Expression of Interest – Waste Management and Recycling Technology, Waste Items for Recovery and Recycling**

Dear Members,

We are excited to inform you that the PacWastePlus programme together with the Waste Management and Pollution Control Programme, is releasing the following Expressions of Interest to assist Pacific Island Countries to managing problems wastes generated in region.

- EOI – Register of waste management and recycling technologies
- EOI – Register of companies that will accept waste items for recovery or recycling

The creation and maintenance of these registers will enable member countries and the waste industry, to access up-to-date information on companies able to provide technological support or an active market to accept wastes from the region, facilitating the diversion of these products from landfill, and providing more opportunity for countries to access the Moana Taka Partnership to ship these products from the region to a recovery market.

Further details on the Expressions of Interest is located on the SPREP website:

<https://www.sprep.org/pacwaste-plus>

We encourage all Focal Points to distribute these Expressions of Interest throughout their personal and professional networks. Should you require further clarification please email the PacWastePlus programme team on pw@sprep.org

Over the coming weeks the PacWastePlus programme will promote these EOI's through the SPREP website, paid advertisements in Waste Management Associations in Australia, New Zealand and the Pacific.

Yours sincerely,

Kosi Latu
Director General
