

CIRCULAR

FILE: AP 6/13 **TO:** SPREP National Focal Points
DATE: 5 April 2022
CIRCULAR: 22/28
SUBJECT: **Regional Disaster Waste Management Guideline Publication**

Dear Members,

I am pleased to inform you of our recently developed publication titled "[Regional Disaster Waste Management Guideline](#)".

This Regional Disaster Waste Management (DWM) Guideline aims to contribute to resilience building of Pacific islands to disasters by providing specific information for the management of disaster waste, improvement of existing waste management facilities to improve readiness, and the integration of disaster waste into national disaster management plans for efficient coordination of preparedness, response and recovery operations.

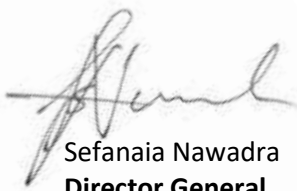

This Guideline was developed and supported by JICA Project/JPRISM II ((Japanese Technical Cooperation Project for Promotion of Regional Initiative on Solid Waste Management in Pacific Island Countries, Phase II) in collaboration with SPREP, Ministry of the Environment Government of Japan in partnership with our Pacific islands.

This initiative was made possible through the support and contribution from Pacific Islands during the sub-regional consultation in Samoa in October 2018, in Palau in February 2019, and the regional consultation during the SPREP meeting in September 2019.

The guideline is now available at: <https://library.sprep.org/content/pacific-island-countries-regional-disaster-waste-management-guideline>

For further information please email Mr. Faafetai Sagapolutele, Assistant Chief Advisor, J-PRISM II at faafetais2018@gmail.com

Yours sincerely,

Sefanaia Nawadra
Director General
