**Subject: Request for tenders (RFT): Development of IT Scripting and Programming Training Materials plus Training and Capacity Building for National Meteorological & Hydrological Services in the region.**

---

### Question 1:

On the tender: Development of IT Scripting and Programming Training Materials plus Training and Capacity Building for National Meteorological & Hydrological Services in the region. Can you please specify if there is a max budget limit for this project or what sort of typical contractor day rates you would be expecting to receive for this?

### Response:

This is a competitive process, applicants are encouraged to submit a realistic and cost-effective financial proposal that aligns with their proposed methodology, workplan, and timeline for delivering the required outputs.

### Question 2:

What is the duration for this project? Is the learning material for year long training, 2 years or 6 months?

### Response:

As per the Terms of Reference, this assignment is to be completed within five (5) months from the date of signing the contract. The learning materials are to be developed to meet the objectives of this assignment and delivered to the targeted audience (National Meteorological & Hydrological community) on a phase approach (weekly).
