### **Question 1:**

Is there an indication of how many working days you envisage assigning to each assignment? Or a more detailed TOR. The working days are important so as to avoid clashes with other work.

### **Response:**

The work is anticipated to be completed by 30 November 2025. However, this is subject to change based on your proposed approach and understanding of the scope of works (as part of technical and financial proposal) and proposed timeline. Normally we anticipate this work to be completed within 2-3 months. But a more defined timeframe will be agreed and finalised when you get to inception stage.
